

Age–sex–standardised reimbursed glucagon–like peptide–1 receptor agonist use

Regional rates per 100,000 residents; France, 2025

Provence–Alpes–Côte d'Azur and Corsica form one analytical grouping and share the same estimate.
Overseas territories are available only as a combined grouping (2,435.9 per 100,000) and are not mapped separately. Sources: Open Medic; INSEE; Etalab/IGN ADMIN EXPRESS.
